Part II: Building Blocks of Design

A working knowledge of color theory and its rela-

tion to designing scrapbook pages is essential to the development of well structured layouts. A picture is not always worth a thousand words. It is vital that every scrapbook designer develop an appreciation for the integration of the written word on a scrapbook page. The Power of the Pen will provide students with basic writing techniques and exercises to assist in the development of engaging titles and impact filled journal entries. Additionally, students will begin to understand the influence that hand lettering has on their reader, and how to incorporate their personal script into each design.

Tuesday, January 18th at 10:30 AM

Part IV: The Final Touch

Embellishing scrapbook pages is a true testament in the development of a paper crafter's design process. Page enhancements such as titles, stickers and punch art, allow the designer to create balance, rhythm, movement, contrast and depth with a layout. Design spectacular titles, learn techniques that give new vitality to your collection of stickers, develop knowledge of punch maintenance and the incorporation of punch art design in layout design.

Product of The Month

This month's Product of The Month will have you in stitches! This fabulous new tool from We R Memory Keepers makes stitching on your pages even easier than ever! No more poking holes individually! The Sew Easy Stitch Piercer is a rotary stitch piercer that creates perfectly aligned holes that can easily be stitched up. The tool comes with a straight line hole puncher, but additional designs are sold separately for more decorative stitching. Additional designs include: scallop, hem, cross, zig zag, burst and blanket. Each tool package includes one stitch piercer tool with built-in storage, one stitch attachment head and one stitching needle. You'll also want their wonderful piercing mat that is a full 12" long, so you do not have to keep realigning your paper over a small piercing mat, and some of their wonderful floss card collections to complete your fantastic new EASY sewn pages! The Tool is 25% off this month for all BPC Members!

Workshop Rules

- 1) When there is a scheduled class or crop only registered participants are allowed to be in the workshop area. Please refrain from entering the area until the class is completely over. It is distracting to both the teacher and the students to have other people in the workshop area during class time. This means you can not crop, layout photos or set up your gear during class time. Please wait until after the class has been dismissed.
- 2) If you have non BPC Members coming to crop with you during open table time there is a \$2.00 an hour fee for any non-member to use the tables and equipment.
- 3) Any person occupying a seat at a crop or class must pay for that crop or class. There is no such thing as a "guest" at a crop or class who does not have to pay. If one exception is made, then everyone would want an exception made and there would be mass confusion and we would have too many people in the crop area, making it uncomfortable for everyone else paying to be there.
- 4) On Friday's, open crop time will end at 6:00 PM, so that the staff has time to prepare the workshop for Midnight croppers.

We very much enjoy being able to offer such a fantastic work space for all our customers and we hope that you enjoy the advantages we offer you. Please help us be able to continue offering these services by cooperating with the rules mentioned above. Thank you for helping us maintain a stress free, fun, place to be!

With more precision, 40% more speed, and cutting twice as deep, this is definitely worth a closer look. Whether you currently have another type of personal die cutting machine or not, this is still a must have. The Slice Elite is portable (weighs less than 2 pounds and is 5" square!), cordless, and easy to use. Includes Basic Element Design Card and works with all Slice design cards.

Angel's Announcement

Four new lines from Making Memories arrived in our store recently and everyone is oohing and ahhhhing at the beautiful collection. Noir, Metalique, Brun and Sienne are some of the most beautiful papers and embellishments we have ever seen. A little bird told me that Tammy and Karen will be using some of these gorgeous products for Double Features and DIY's so pop in sometime in December and see for yourself.

Jennifer's Jottings

Stop in and see our decorated ones that are on display. They make great ideas for teachers, friends or family members. Make this the final gift to complete your Christmas list.

Marissa's Monologue

We received new and VERY cute boy and girl 12x12 albums from MBI. We've got jumping monkeys, hopping hippos, lazy frogs, freezing penguins and a beautiful flower and flying butterfly. These albums are adorable and absolutely to die for!! Also, they are 3D, so your front cover pops out. What a great way to commemorate pictures of your children, grand children, or even for yourself. Don't forget to check out the kids section to find awesome paper collections to go in your albums! Stop by Scrapbook Super Station to get your crazy 12x12 album while supplies last!

Great news scrapbookers!! I'm sure that you are set and ready to scrap with all of our amazing Christmas and winter designs, but I strongly suggest you come in to take a look at Basic Grey's two newest lines! The Curio line uses modern designs, yet it has somewhat of a classic feel, using bright reds, yellows, greens and browns. The paper is two-sided with printed designs on one side and a less "busy" design using beautifully bold color on the other. The Marjolaine line uses more blue, greens, and browns as well as floral prints. This line would be beautiful for spring and summer. The Marjolaine line also has an abundance of two-sided paper with over 10 different designs. Both lines come with matching albums, card kits, page kits and tons of embellishments! I believe that Basic Grey did a wonderful job of using color and design to capture the visual appeal of any layout!! So, please do make the time to check out both the Curio and Marjolaine lines. I wish you all Happy Holidays and I hope to see you soon.

Tammy's Techniques

I know all of you are busy preparing for the holidays, so I'd like to tell you about a quick, easy way to decorate those scrapbook pages just waiting for the perfect finishing touch. K & Company has just sent us a

They come in a huge selection for birthday, anniversary, decade era's etc... some are "glittered and glammed," some are soft and pretty, but they are all just waiting for you to come in and see how great they are. Happy Holidays to all of you and yours.

Chels' Place

Deadline for Earning Rebates

Just a reminder that on December 31st point totals that go towards rebates reset to zero for the new year, even if you have renewed your membership for 2011. Our computer does this automatically, meaning points don't carry forward into the new year. We don't like it anymore than you do, but the good news is that you can come in, check your point level and earn your rebates before the calendar year ends! And even better, you don't have to rush to redeem those rebates anymore! You have 60 days to redeem them!
