Workshop Rules

- 1) When there is a scheduled class or crop only registered participants are allowed to be in the workshop area. Please refrain from entering the area until the class is completely over. It is distracting to both the teacher and the students to have other people in the workshop area during class time. This means you can not crop, layout photos or set up your gear during class time. Please wait until after the class has been dismissed.
- 2) If you have non BPC Members coming to crop with you during open table time there is a \$2.00 an hour fee for any non-member to use the tables and equipment.
- 3) Any person occupying a seat at a crop or class must pay for that crop or class. There is no such thing as a "guest" at a crop or class who does not have to pay. If one exception is made, then everyone would want an exception made and there would be mass confusion and we would have too many people in the crop area, making it uncomfortable for everyone else paying to be there.
- 4) On Friday's, open crop time will end at 6:00 PM, so that the staff has time to prepare the workshop for Mid-night croppers.

We very much enjoy being able to offer such a fantastic work space for all our customers and we hope that you enjoy the advantages we offer you. Please help us be able to continue offering these services by cooperating with the rules mentioned above. Thank you for helping us maintain a stress free, fun, place to be!

Copic Marker Classes

My name is Sally Lynn MacDonald and I am an independent instructor of mixed media and paper arts. My goal is to teach subjects using materials or techniques that might at first have you saying, 'Huh?' and take you to, "Aha!" I truly value education. My classes tend to be very accessible and yet technique driven, covering a range of topics. They are meant to inspire, educate and help you get your stories told (as well as get past the creative fears that we all experience).

In order to promote an excellent teaching experience, I have obtained certification and/or endorsement from several manufacturers, including: Copic Markers, Clear Scraps, Graphic 45, Prima Marketing, Ranger, 7 Gypsies, Tattered Angels and Webster's Pages. I hope you will join me **September 11th** at Scrapbook Super Station so that I can share my knowledge with you! I will be teaching **THREE DIFFERENT** classes throughout the day. COPIC MARKER CLASSES

Three Classes with Sally Lynn MacDonald

SEPTEMBER 11, 2010

COPIC: WHAT? HOW? & WOW!
10:00 AM TO 12:00 PM \$45.00

What is so special about Copic markers? These markers go way beyond coloring stamped images to multi-surface applications on cardstock, transparencies, fabric and more surfaces than you can imagine. Learn about the different styles of markers, and how the markers work, without the revealing brushstrokes so often associated with marker coloring. Unlock the secrets to choosing from the incredible 334 colors for blending and shading. Hands-on practice using four blending techniques that build upon each other and culminate with a three page handout that is yours to keep for reference and practice. An airbrushing demonstration will also be included as time allows. Taught by Sally Lynn MacDonald, Endorsed Artist-Educator for Prima, Tattered Angels, Ranger and Copic Marker.
