

EXTRA!! EXTRA!! HAVE YOU HEARD THE NEWS??

TWO New FABULOUS Class Types Are NOW Being Offered At Scrapbook Super Station!

With **LOWER PRICES** and a focus on **KNOWLEDGE** and **PROBLEM SOLVING**, they were created with **YOU** in mind.

DESIGNED TO SCRAP

This new class concept will help you scrap TWO of YOUR own pages quickly and easily because our **Design Team** will **personally help you!** You will bring photos enough for two pages and Karen and Tammy will show you what to do by providing you with a basic sketch and building blocks. Once you've designed what your pages will look like, they will help you pick out just the right product to complete the page. You keep your sketch and building blocks to help you out next time you are stuck. Each class presents a new sketch and building blocks, so come as often as you can so you can get those pages done! Class is only \$10.00...what a steal for **ONE ON ONE TIME** with our Design Team!

TIPS & TECHNIQUES

Our Tips & Tricks classes are just the thing for veteran and novice scrappers alike. These classes concentrate on giving you **HELPFUL, CREATIVE** and **INTERESTING** tips and tricks for using everyday items such as brads, buttons and even simple old cardstock. There are also **KNOWLEDGE** based classes on inks and spritzs. Class themes change monthly and are varied. Be sure and check the schedule. In each class you will make components for two different 2 page layouts and every class is new and different! These classes are only \$20.00 and you'll spend two hours playing with products, learning cool techniques and building your knowledge base! We're sure you'll learn something and you'll walk away with cool projects!
